
CF severity vs physical severity, by cohort and model
(tight diagonal = CF tracks physics → high persistence AUC; scattered = CF decoupled from physics → AUC drops)
Cohort 2014
Cohort 2015
Cohort 2016
Base model
(train 2013–14)
Recal model
(train 2014–15)
CF |ΔWARP| (in)
Dist-to-limit (in) — physical severity
